Organization Meeting Digital Archaeology – Protocol

Date: 08.03.23, 13:00 – 14:00

Participants: Ruben, Andrea, Daniele, Mariana, Jonas, Francesca Zandonai, Yunyun, Hafiz

Tasks:

- Mailing list: Mariana (Ruben creates two mailing lists: one for BerGSAS, one for everyone interested in the Digital Archaeology Network)
- Jonas writes a draft for the website
- User-wiki: Hafiz (Lukas contacted by Ruben)
- Logo – ideas, please share them until (Ruben contacts Carina and Birgit for the website and logo)
- Program – excel table shared in the FUBox. List of possible guests, excursions etc.
  - PC Pool meeting and lecture (two meetings per month. Lecture: last Wednesday of the month 17:15. Pool: last Friday of the month 16:00 – 18:00 – limited to 10-15 people, BerGSAS)

Why the Network: BerGSAS lack of interdisciplinarity since TOPOI has gone. LAA needs the right framework for that and support for advanced analysis with GIS etc. Connect with specialists dealing with these issues.

Ruben already submitted to BerGASAS two applications for funding trainings by two experts:

1) basic background training for GIS + open round of questions for your project problems

2) geographer for advanced GIS analyses (geoinformatic, semiautomatic remore sensing)

First lecture: 29.03 Georg Roth "First encounter with Multivariate Statistical Analysis"

How to organize it:

1) frontal lecture

2) trainings (who knows experts etc)

3) PC pool room, where everyone meets and discuss problems – special meeting extra beside the lecture

Excursion: yes. BLDAM Lukas

Next meeting: Wednesday 22.03.23, 17:30.
